Quality Learning Solutions For Composites

# Composite Learning Solutions

**Consuta is a small yet expert composites training company, whose aim is to develop the knowledge, skills and expertise required within our industry.**

We do this in several ways:

- Engaging with the development of National qualifications
- Assisting the trade association with competency requirements
- Working with employers to develop specific skill requirements
- Delivering training programmes in our bespoke premises

“I was surprised at how quickly I picked blade inspection and repair up. I can't wait to do the advanced course – Fantastically run.”

*M. Jacobs, Surrey*

## Why invest in training?

Investing in staff is essential for your business to remain competitive whatever its nature or size. The need for a trained competent workforce in the composites industry is increasing year on year.

Consuta Training works in partnership with companies large and small to enable them to realise training as one of their best investments and deliver real benefits.

## Training with Consuta:

- Provides greater efficiencies in production
- Improves quality and service
- Leads to a more competent, productive and adaptable workforce
- Makes your business more competitive
- Increases employee motivation
- Provides a means of recognising loyal and skilled employees
- Helps staff to work more safely and better fulfil their responsibilities under HSE legislation.

## What can Consuta do for my business?

Consuta is your industry training expert with 10 years of experience behind us. We have staff that can help identify your business needs and match those with the most relevant and cost effective training available.

### Consuta will:

- Help you identify training needs
- Advise how you can measure the performance of trainees on the job
- Advise on 'on-job' and 'off-job' training programmes available
- Advise on any government subsidies available
- Keep you up to date with any training developments.

## What can Consuta do for my employees?

- Increase motivation by giving people the opportunity to gain skills and competency in the composites industry
- Recognise competency
- Give staff knowledge related to the industry.

## What can Consuta do for the industry?

- Identify skills and knowledge which the industry needs now and in the future
- Ensure industry qualifications remain relevant and up to date
- Stimulate a greater degree of competence in the industry
- Work with the trade body to give maximum coverage and engagement.

“The course was fantastic! I got all the help I needed and left feeling so confident. I would highly recommend Consuta Training.”

*M. Brett, Glasgow*

“Chris really helped me feel at ease! I feel so much more confident about my job now.”

*S. Knowles, London*
